

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

SAILING REGULATIONS.

RULE I.

MANAGEMENT OF RACES.

All races, and yachts sailing therein, shall be under direction of the Regatta Committee of the Club. All matters shall be subject to their approval and control, and all doubts, questions, and disputes which may arise shall be subject to their decision. Their decisions shall be based upon these rules, so far as they apply, but as no rules can be devised capable of meeting every incident and accident of sailing, the Regatta Committee shall keep in view the ordinary customs of the sea, and discourage all attempts to win a race by other means than fair sailing and superior speed and skill. The decisions of the Committee shall be final.

The Regatta Committee have power to make any changes in the rules which may appear to them necessary for the regulation of open races.

RULE II.

APPLICATION.

Yachts entered in a race shall be amenable to these Rules from the time the preparatory signal is given.

These rules shall apply to all yachts sailing in a race, whether in the same or in different classes.

All yachts belonging to the Club, not sailing in a race, shall keep out of the way of yachts in the race, and to leeward of them.

RULE III.

POSTPONEMENT.

The Regatta Committee shall have power to postpone any race, should unfavorable weather render such a course desirable.

RULE IV.

CLASSIFICATION AND MEASUREMENT FOR RACES.

Classification shall be by racing length as follows: First class; all yachts over 26 feet and not over 32 feet. Second class; all yachts over 22 feet and not over 26 feet. Third class; all yachts over 19 feet and not over 22 feet. Fourth class; all yachts over 15 feet and not over 19 feet. Fifth class; all yachts of 15 feet and under. Any yacht whatever her racing length may be, enrolled in the Club before October 1, 1895, or which has sailed in any of the Club's races before October 1, 1895, may sail in the class in which she has sailed, or may have been entitled to sail before that date, unless her racing length has since been increased by change of form or ballast and after such increase is above the limit of her class.

In all classes, Cats and Sloops shall sail for separate prizes and pennants.

In case there be only one entry in any class or division thereof, such entry may sail in the next higher class of the same rig in which there may be any entries; but shall sail at her usual racing-length. In case there be but a *single entry* in all Sloop classes, such Sloop may sail with Cats of her own class. Cat-Yawls shall be classified as Cats.

Racing measurement shall be the length of the yacht on a line parallel with and above the water-line; the perpendicular distance of this line above the water-line shall be for 1st class, 5 inches; 2d class, 4 inches; 3d class, 3 inches; 4th and 5th classes, 2 inches.

The water-line length and racing length shall be measured when the yacht is afloat, and in ordinary sailing trim. The crew need not be aboard, but if aboard must be stationed amidships. The anchor shall be on board, sail furled and boom in the crotch. If a centre board yacht, the centre board shall be hauled up so that the lower edge of the centre board shall be flush with the keel.

The water line length shall be taken from the point of immersion forward to the point of immersion aft; but in case any portion of the rudder or rudder-post comes above the surface of the water, such part shall not be included in the water-line length.

Yachts must be measured before starting in a race, but the Regatta Committee may for good reasons of which they have been notified before the race name some later time for the measurement.

If a yacht's racing length is increased by any means after measurement, the Regatta Committee must be notified and she must be remeasured before starting in any race. In case of remeasurement on a protest, a fee of two dollars (\$2) shall be paid to the measurer by the owner of the protesting yacht if the protest is not sustained and by the owner of the yacht protested if sustained. No yacht shall be entitled to be remeasured for any temporary change of trim not intended to be permanent, unless such change of trim increases her racing length.

The measurer shall furnish certificate of measurement to each yacht measured.

Note.—Anyone desiring to have a boat measured on the day of a race will find Mr. Edward H. Burgess, Assistant Measurer, in Tobey Island harbor till 11.30 A. M. No boat will be measured on the day of a race after 11.30 A. M. Members desiring to have their boats measured on days other than race days can make appointments by writing to Edward H. Burgess, Pocasset, Mass.

A fee of one dollar (\$1) will be charged for measurement in all cases.

RULE V.

CRUISING CLASS

To be seaworthy boats, with wood centre boards, decked, or half decked, with small cabin house and fair accommodations. With water-tight standing room or air tanks of sufficient capacity to float the boat when full of water. Rigged simply with only mainsail, fore staysail, or jib, and spinnaker.

The load water-line, with full equipment aboard, but without crew, shall not exceed 21 feet. The beam, at load water-line, shall be at least 7 ft. 6 in. The free-board shall not be less than 20 in. on the minimum beam. A reduction of 1" on the free-board allowed for every increase of 4" in beam.

The forward side of mast at deck shall be not less than 4 ft. 3 in. aft of forward end of the load water-line. The planking, including deck, shall be not less than three-fourths inch finished. The frames shall not be less than one square inch, and deck beam not less than $1\frac{1}{3}$ sq. in. section. The spacing of frames and deck beams to be not more than 9 in. centre to centre. The rudder shall be hung to the aft end of false keel and deadwood, and shall be unbalanced. The deadwood shall be filled in.

The draught of water without centre board shall not exceed 3 ft. 6 in. The outside ballast shall be not less than 3000 lbs. The centreboard shall be ballasted not more than enough to sink it, and not exceeding fifty pounds.

The sail shall not be over 600 sq. ft., at least twenty per cent. of which shall be in staysail or jib. A smaller staysail, or jib, may be set in place of regular one. The extreme distance in feet from mast to end of spinnaker boom when in position as used shall be not more than 400 divided by the distance in feet from deck to throat of spinnaker halyard block.

The measurements for area of mainsail and staysail to be taken

when sails are dry and set taut and flat, and to the satisfaction of the inspector. No battens over 30" in length allowed to be used in sails.

No time allowance will be made in this class.

Crew limited to three.

Equipment to include anchor not less than twenty-five pounds, cable not less than thirty fathoms of $1\frac{1}{4}$ " rope. Bucket, pump, compass, fog-horn, lead and line, lantern. Three life preservers.

RULE VI.

TIME ALLOWANCE.

Prizes shall be awarded on "corrected time"; allowance for lengths being figured as per tables to be found in this Club-book.

Yachts which have not been enrolled in the Club nor sailed in any of the Club's races prior to October 1, 1895, shall not receive any time allowance, but shall give the usual allowance to yachts entitled to receive allowance, all new boats sailing at the class limit for purposes of allowance. A yacht so altered below the limit of measurement after October 1, 1895, as to change her racing length by other means than the change of weight, shall be considered as built after that date for purposes of allowance.

RULE VII.

SAILS.

Cat-boats shall carry mainsail only. In all other classes, except cruising class, there shall be no restriction in regard to sails, unless otherwise ordered by the Regatta Committee, who shall have full power to regulate this; *and no means except sails* shall be used to propel a yacht and no spinnaker shall be carried extending above the upper halliard sheave or block.

RULE VIII.

ALLOWANCE OF MEN.

Yachts during a regatta are allowed to carry crews as follows : First Class Sloops shall be allowed to carry six men ; First Class Cats and Second Class Sloops can carry five men ; Second Class Cats and Third Class Sloops can carry four men ; Third Class Cats and Fourth and Fifth Class Cats and Sloops and Cruiser Class can carry three men.

RULE IX.

MEMBERS ON EACH YACHT.

Every yacht competing for a prize shall be sailed only by a member of the Club.

RULE X.

BALLAST.

No change in the weight of ballast shall be made on the day of a race, and no trimming by dead weight allowed during a race in any class. But the Regatta Committee may waive the first clause of this rule for open races.

RULE XI.

SPARS.

No change of spars shall be made on the day of a race, except in case of accident ; in which case notice of the change shall be given to the Regatta Committee before the preparatory signal, and the new spars shall be of the same length as those for which they are substituted.

RULE XII.

INSTRUCTIONS.

Each yacht entered for a race shall, at the time of entry, or as soon after as possible, be supplied with written or printed instructions as to the conditions of the race, the course to be sailed, marks, etc. Nothing shall be considered as a mark in the course unless especially named in such instructions.

The Regatta Committee shall have power to change the course, or amend the instructions, on or before the day of the race, providing notice of such change is given to each yacht before the preparatory signal is made.

RULE XIII.

TIME OF RACE.

Yachts in the first and second classes must sail the race at a rate not less than two and three-quarter miles an hour; those in third, fourth and cruising classes at a rate not less than two and a half miles an hour; and those in fifth class at a rate not less than two miles an hour.

RULE XIV.

ANCHORING.

Yachts may anchor during a race without forfeiting their claim to a prize, but must weigh their anchors on again resuming their course.

RULE XV.

REMOVAL OF STAKEBOAT.

Should any stakeboat, buoy, or other mark be absent or moved from its proper position during a race, the question of re-sailing the race shall be decided by the Regatta Committee.

RULE XVI.

ACCIDENTS.

In case of accident to another vessel, or of a man falling overboard from another vessel, all yachts in a position to do so shall use their utmost endeavors to render assistance, and if it should appear, in the judgment of the Regatta Committee, that any yacht so rendering assistance was thereby prevented from winning the race, the committee shall have power to order the race to be re-sailed between such yacht and the actual winner in the same class.

RULE XVII.

START AND FINISH.

§ 1. The time of the start and finish shall be taken when the point marked by the foremast in schooners, and the mainmast in single-masted vessels and yawls, crosses the given line ; but if this point in any yacht be across the line when the signal for the start in her class is made, she must return and re-cross the line.

§ 2. A yacht so returning, or one working into position from the wrong side of the line after the signal for the start has been made, must keep clear of, and give way to, all competing yachts.

RULE XVIII.

§ 1. When one yacht is approaching another yacht so as to involve risk of fouling, one of them shall keep clear of the other as follows :

§ 2. A yacht free shall keep clear of one close-hauled.

§ 3. When both yachts are close-hauled, or both free, or both have the wind aft and have the wind on opposite sides, the yacht with the wind on the port side shall keep clear.

§ 4. When both yachts are free, or both have the wind aft and have the wind on the same side, the yacht to windward shall keep clear.

§ 5. A yacht with the wind aft is deemed to have the wind on the side opposite to that on which she is carrying her main boom. A yacht with the wind aft shall keep clear of a yacht on any other point of sailing.

§ 6. An overtaking yacht shall in every case, as long as an overlap exists, keep clear of the yacht which is being overtaken.

§ 7. An overlap is established when an overtaking yacht has no longer a free choice on which side she will pass, and continues to exist as long as the leeward yacht by luffing or the weather yacht by bearing away is in danger of fouling.

§ 8. When of two yachts one is obliged to keep clear, the other shall not so alter her course as to involve risk of fouling.

§ 9. A yacht may luff as she pleases in order to prevent another from passing her to windward, provided she begins to luff before an overlap has been established.

§ 10. A yacht shall not bear away out of her course so as to hinder another in passing to leeward.

§ 11. A yacht shall not become entitled to her rights on a new course until she has filled away.

§ 12. When two yachts, both close-hauled on the same tack, are converging by reason of the leeward yacht holding a better wind, and neither can claim the rights of a yacht being overtaken, then the yacht to leeward shall keep clear.

§ 13. If an overlap exists between two yachts when both of them without tacking are about to pass a mark on the required side, then

the outside yacht must give the inside yacht room to pass clear of the mark. A yacht shall not, however, be justified in attempting to establish an overlap and thus force a passage between another yacht and the mark after the latter has altered her helm for the purpose of rounding.

§ 14. A mark is any vessel, boat, buoy, or other object used to indicate the course and does not in the preceding section involve any question of sea-room.

§ 15. When a yacht is in danger of running aground, or of touching a pier, rock or other obstruction, and cannot go clear by altering her course, without fouling another yacht, then the latter shall, on being hailed by the former, at once give room; and in case one yacht is forced to tack or bear away, in order to give room, the other shall also tack, or bear away, as the case may be, at as near the same time as is possible without danger of fouling.

RULE XIX.

DISQUALIFICATION.

§ 1. A yacht touching a mark or causing a mark-boat to shift her position, unless wrongfully compelled to do so by another yacht, shall be disqualified.

§ 2. If a yacht, in consequence of a violation of any of these Rules, shall foul another yacht, or compel another yacht to foul any yacht, mark or obstruction, or to run aground, she shall be disqualified and shall pay all damages; and any yacht which shall wrongfully cause another to alter her course in order to avoid fouling, or shall, without due cause, compel another yacht to give room, under § 15 of Rule XVIII., or shall herself fail to tack or bear away, as required by that Section, or shall in any other way infringe or fail to comply with any of these Rules, shall be disqualified.

RULE XX.

§ 1. All protests against any yacht in a race must be made in writing to the Regatta Committee or Judges, within half an hour after the close of the race.

§ 2. The Committee may also, without a protest, disqualify any yacht should it come to their knowledge that she has committed a breach of the Rules.

§ 3. All questions arising in any race, not covered by these Rules, shall be decided by the Committee.

§ 4. The decisions of the Committee shall be final, unless they see fit to refer any questions at issue for the decision of the Club.

RULE XXI.

AMENDMENTS.

These sailing regulations may be amended at any meeting, provided notice of the proposed amendment has been given in the call for the meeting.
